### **REASONS FOR ALLOWANCE**

Claims 1-11 are allowed.

The following is an examiner's statement of reasons for allowance:

As per independent claims 1, 2 and 7, the amendment filed 7/15/2004 overcomes the teaching of the prior art as applied in the prior rejection (see also Applicant's arguments on pages 5-7). A further search of the prior art did not reveal any references that teach or reasonably suggest in combination the present invention as now claimed. Specifically, the prior art does not teach or reasonably suggest in combination that the gear ratio is maintained during a time period when the coast switch is continuously and excessively switched on as now claimed in the present invention.

Claims 3-6 and newly added claims 8-11 serve to further define the invention of claims 1, 2 and 7 over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eric M Gibson whose telephone number is (703) 306-4545. The examiner can normally be reached on M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas Black can be reached on (703) 305-8233. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
